DRIVE ME

On-demand Errands, Pickup & Delivery

Built for Cameroon. Ready to Scale.

The Problem

Everyday tasks in Cameroon are unnecessarily hard

No reliable last-mile

Getting something picked up, delivered, or an errand done requires phone calls, trust issues, and zero reliability.

No digital platform

No app exists in Cameroon that connects users with verified local agents for on-demand tasks.

Cash-only economy

Payments are unstructured — no escrow, no tracking, no agent accountability.

The Solution

Drive Me connects users with verified local agents — instantly.

Africa's gig economy is growing 15% YoY. Drive Me is positioned to own the Cameroonian market before any competitor emerges.

How It Works

From request to completion in minutes

1

Register

User signs up with phone number. OTP via SMS. No email needed.

2

Place Order

Select errand, pickup or delivery. Add location and description.

3

Agent Accepts

Nearby verified agent sees the job and accepts within seconds.

4

Real-time Track

User tracks agent status live: en route, arrived, in progress.

5

Pay & Rate

Payment via MTN MoMo. Agent paid automatically. User rates.

Why Drive Me Wins

First Mover

No competitor exists in Cameroon. We own the market from day one.

Trust Built In

Neighbour verification + agent rating system creates accountability that WhatsApp groups never will.

Local Payments

MTN MoMo and Orange Money — the wallets Cameroonians actually use. Zero friction.

Production Ready

Not a prototype. API deployed, admin panel live, mobile app built. Day 1 operational.

Income Generation

Agents earn real income. This creates supply-side loyalty that competitors can't buy.

Scalable Stack

Modern infrastructure scales from 100 to 100,000 jobs/day. What-3-Words GPS solves Cameroon unmarked streets — $3m^2$ precision nationwide.
